

Interior Light Vehicle Driver Awareness

- Duration:** 1 Day
- Who For:** Compulsory for all company and contractor personnel who are required to drive light vehicles as part of performing their job. Can also be tailored to fit the requirements of other organisations, their equipment and conditions
- Aim:** This course is conducted as a refresher for personnel who have previously successfully completed the Interior Driving Skills course and have been issued with an Interior Light Vehicle Driving Permit.
- Upon successful completion of this course, a renewed Interior Light Vehicle Driving Permit with a validity of 3 years will be issued to holders of a valid ROP driving licence, or for 3 months to holders of other licences accepted by the ROP.
- The course aims to motivate drivers to drive more safely by providing an insight into the limitations of their own driving abilities, thereby showing that it is necessary to drive more carefully.
- This is achieved through a series of in vehicle exercises in which common driver habits are shown to be unsafe. The course provides a refresher of the driving skills learned in the Interior Driving Skills course, refreshes and assesses their knowledge of road safety rules and regulations.
- Objectives:** Upon successful completion of this course the attendee will be able to:
- Demonstrate knowledge of Country and COMPANY rules and regulations applicable to drivers of light vehicles in the interior.
 - Demonstrate awareness the beneficial effects of the use of seatbelts using a seat belt convincer.
 - Demonstrate an awareness of their limitations of their own driving abilities through a series of in-vehicle exercises; and
Interior Light Vehicle Awareness continued....

- Demonstrate the ability to drive a four-wheel light vehicle on graded roads to the standards required for the issue of a COMPANY Light Vehicle Driving Permit.
